DETAILED ACTION

Information Disclosure Statement

It is noted that the reference titled "PUDERN ODER BESTAEUBEN – VERSTAUBT ODER AKTIELL?" was not considered in the IDS filed March 23, 2006 because a copy of the foreign reference was not supplied by applicant.

Specification

The specification is objected to because the customary U.S. patent headings are missing, i.e., "Background of the Invention," "Brief Description of the Drawings," etc. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 26 is rejected under 35 U.S.C. 102(b) as being anticipated by Haas (U.S. Patent No. 6,267,540). The operation of the mixing device of Haas is readable on the method steps of claim 26; see col. 3, lines 1-47. Ambient air is readable as being supplied to the compressor.

Allowable Subject Matter

Claims 15-25 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
